

Health Check-up and Awareness Camp

S.B. Devi Charity Home organized a health check up camp in association with Rajdoot Sporting Club on the 20th of January 2008 Sunday from 10.00a.m onwards. This club is located at 91, Shyambazar Street which is a walking distance from our project building. About 80 patients attended this camp.

Some dignitaries like Mrs. Kalyani Mitra, Mayor in Council Kolkata Municipal Cooperation, Mr. Tarak Banerjee Local MLA and many more sports personals of Bengal graced this camp. We also had Pascale, Angela, and Andrea our delegation team from CP participating in this programme.

Our main focus in this camp was primarily to bring awareness to the people and tell them about their General Health and Nutritional Status. Secondly we motivated them to continue their necessary treatment in our OPC.

The area of treatment offered were General medicine, Gynaecology, Paediatric, ENT and Orthopaedics. We also did Body Mass Index (BMI) for each and every patient who attended the camp to assess their nutritional status. Finally each and every patient was given Nutritional Advice. Leaflets were distributed among the people giving them a nutritional guideline to eat healthy and stay healthy.

The following investigations were done ECG, Estimation of Blood Hb%, and Random blood sugar according to the doctor's advice.

This camp turned out to be a success due to the efforts and good team work of all the members of S.B.Devi Charity Home who participated in this camp.

Below is the assessment sheet which was used at this camp.
